1 OVERVIEW

The Public-Use Data File User's Manual for the 2015–16 Civil Rights Data Collection (CRDC) provides documentation and guidance for users of the 2015–16 CRDC data. The manual provides information about the purpose of the data collection, the universe of schools and local education agencies (LEAs), differences in the restricted-use and public-use data, data collection procedures, data anomalies and considerations, the data file structure, and data processing.

1.1 The Civil Rights Data Collection

Since 1968, the CRDC, formerly the Elementary and Secondary School Survey, has collected data on key education and civil rights issues in our nation's public schools. The data are used by the U.S. Department of Education's Office for Civil Rights (OCR) in its enforcement and monitoring efforts, by other Department of Education offices and federal agencies, and by policymakers and researchers outside the Department of Education. The CRDC collects information about school characteristics and about programs, services, and outcomes for students. Most student data are disaggregated by race/ethnicity, sex, English-learner status, and disability status.

The CRDC is a biennial survey (i.e., it is conducted every other school year), and response to the survey is required by law. Data from the 2013-2014 collection and prior collections back to 2000 are also available.

The 2015–16 CRDC collected data from the universe of all LEAs and schools, including long-term secure juvenile justice facilities, charter schools, alternative schools, and schools serving students with disabilities. Data were collected for the 2015–16 school year. Data collection began in January 2017 and ended in June 2017.

The CRDC data are collected pursuant to the 1980 Department of Education Organization Act and 34 CFR Section 100.6(b) of the Department of Education regulation implementing Title VI of the Civil Rights Act of 1964. The requirements are also incorporated by reference in Department regulations implementing Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.

1.2 Purpose

The CRDC is a longstanding and critical aspect of the overall enforcement and monitoring strategy used by OCR to ensure that recipients of the Department of Education's federal financial assistance do not discriminate on the basis of race, color, national origin, sex, or disability status. OCR relies on the CRDC data it receives from LEAs as it investigates complaints alleging discrimination, determines whether the federal civil rights laws it enforces have been violated, initiates proactive compliance reviews to focus on particularly acute or nationwide civil rights compliance problems, and provides policy guidance and technical assistance to educational institutions, parents, students, and others.

1.3 Target Population and Respondents

Starting with the 2011–12 data collection, CRDC data has been collected from the universe of all LEAs and schools, including long-term secure juvenile justice facilities, charter schools, alternative schools, and schools serving students with disabilities. Data are collected at both the school and LEA levels, but the LEA is the primary responding administrative unit for both.

For the 2015–16 data collection, the initial target population included 17,422 LEAs and 99,518 schools. Through the course of the data collection, some LEAs were found to have merged, closed, or opened and were accordingly added or removed from the initial target population. These additions and deletions resulted in a revised final target population of 17,370 LEAs and 96,440 schools.

1.4 Restricted-Use vs. Public-Use Data Files

The restricted-use data file is the primary analysis and investigative file for the CRDC. This file is the basis for enforcement research, as well as for internal program and policy analysis. These data are minimally edited to preserve the original, certified data as submitted. (Data editing for the restricted-use file is described in section 6.) All data elements collected, as well as external data from *EDFacts*,¹ are included in the restricted-use file.

The public-use data file is intended for research and analysis external to OCR. The public-use data file is released to maximize the use of statistical information while protecting individually identifiable information from disclosure. The public-use data file contains all data elements and *EDFacts* data; however, some data elements have been rounded, suppressed, or perturbed to protect the identity of the individuals for whom these data are reported.

¹ *EDFacts* is a U.S. Department of Education initiative that centralizes performance data supplied by K–12 SEAs with other data assets, such as financial grant information, within the Department to enable better analysis and use in policy development, planning, and management (see www2.ed.gov/edfacts).

2 NEW FOR 2015–16

This section describes the changes in content between the 2013–14 CRDC and 2015-16 CRDC collections, as well as changes to the online submission tool.

2.1 Changes in Content

Most of the data elements previously collected in the 2013–14 CRDC continued to be collected by the 2015–16 CRDC.

The following required data elements were new for the 2015–16 CRDC:

- Number of students served by LEA in preschool programs in LEA and non-LEA facilities (disaggregated by age 2)
- Number of Algebra I classes in grades 7-8
- Number of Algebra I classes in grades 9-12
- Number of Algebra I classes in grades 7-8 taught by teachers with a mathematics certification
- Number of students enrolled in Algebra I in grade 7
- Number of students enrolled in Algebra I in grade 8 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Number of students who passed Algebra I in grade 7
- Number of students who passed Algebra I in grade 8 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Number of Geometry classes in grades 9-12
- Number of students enrolled in Geometry in grade 8
- Number of students enrolled in Geometry in grades 9-12 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Number of math classes in grades 9-12 taught by teachers with a mathematics certification (Algebra I, Geometry, Algebra II, Advanced Math, and Calculus)

The following required data elements were revised for the 2015–16 CRDC:

- Number of students ages 16-19 who participated in LEA-operated high school equivalency exam preparation program (disaggregated by race/ethnicity, sex, disability status, and English-learner status) *
- Number of students ages 16-19 who participated in LEA-operated high school equivalency exam preparation program, succeeded on test, and received high school equivalency credential (disaggregated by race/ethnicity, sex, disability status, and English-learner status) *

*Note: The text for these questions was updated but the data element names remained the same in the system.

The following data elements were optional for the 2013–14 CRDC, but required for the 2015–16 CRDC:

- Number of incidents of violent and serious crimes
- Number of school days missed by students who received out-of-school suspensions
- Number of students transferred for disciplinary reasons to alternative schools

U.S. Department of Education
2015-16 Civil Rights Data Collection

- Number of instances of corporal punishment for student's in preschool through grade 12
- Number of preschool students who received corporal punishment
- Number of allegations of harassment or bullying on the basis of sexual orientation or religion
- Number of students who participated in justice facility educational program, by specific length
- Number of students enrolled in any distance education course, or dual enrollment/dual credit programs, and number of students who participated in a credit recovery program
- Number of science classes in grades 9-12 taught by teachers with a science certification (Biology, Chemistry, and Physics)
- Number of FTEs for psychologists, social workers, nurses, security guards, and sworn law enforcement officers
- School-level expenditures for teachers and total personnel (funded with federal and state/local funds)
- School-level expenditures and number of FTEs for instructional aides, support services staff, and school administration staff (funded with federal and state/local funds; funded with state/local funds), as well as amount of non-personnel expenditures (funded with federal and state/local funds)
- Number of preschool students served by the LEA in preschool programs in LEA and non-LEA facilities
- Number of students enrolled in LEA and served in non-LEA facilities only
- Number of current teachers employed at the school, and number of teachers also employed at the school in the prior year

The following data elements were dropped for the 2015–16 CRDC:

- Number of students transferred to a regular school for disciplinary reasons (disaggregated by race, sex, disability status, and English-learner status).
- Number of Algebra I classes in grades 7-12
- Number of students enrolled in Algebra I in grades 7-8 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Number of students who passed Algebra I in grades 7-8 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Number of Geometry classes in grades 7-12
- Number of students enrolled in Geometry in grades 7-12 (disaggregated by race/ethnicity, sex, disability status, and English-learner status)
- Total amount of instructional staff (teachers & instructional aides) salaries

3 DATA COLLECTION

This section describes the major activities in the 2015-16 CRDC data collection. Data collection began January 17, 2017 and ended June 23, 2017.

3.1 Partner Support Center

The CRDC Partner Support Center (PSC) provided ongoing support for LEAs completing the CRDC. The PSC responded to telephone calls and e-mails from LEAs that needed technical and substantive assistance with the CRDC. Technical assistance provided by the PSC included assistance logging into the online submission tool, creation of additional accounts, explanation of the different navigation methods in the online submission tool, assistance entering the data manually and via flat file upload, resolution of errors, and help with certifying data. Substantive assistance included help with understanding survey questions, definitions, and other topical content related to the CRDC.

In addition to fielding LEA initiated contact, the PSC conducted outreach. Frequent e-mails that communicated important dates and provided helpful tips about the collection process were sent to the LEAs by the PSC. Follow-up with uncertified LEAs continued on a weekly basis after the data collection opened. The follow-ups offered data submission assistance to the LEAs that had not completed the CRDC. Also, the PSC conducted intensive outreach efforts to unresponsive LEAs.

3.2 Data Submission

Data for the 2015–16 CRDC could be submitted into the online submission tool in two ways: by manually keying the data directly into the tool or by uploading flat files of the data into the tool. LEAs could opt to use either method or a combination of the two methods. All data reported either by online data entry or file upload were stored in the same data repository and were visible in the online data entry screens and all system reports.

Of the LEAs that started their data submission, 60 percent (10,347) used the online data entry tool exclusively; 40 percent (7,019) used the flat file submission to submit some or all of their data.

Screenshots of the online tool and instructions for the flat file submission can be found at the links below:

Screenshots of online tool

<https://crdc.grads360.org/#communities/pdc/documents/7210>

Instructions for flat file submission

<https://crdc.grads360.org/#communities/pdc/documents/5120>

The online submission tool contained a resources page, accessible from every screen in the tool, to assist LEAs with their submission. The resources offered guidance such as tip sheets on difficult to report survey items and how to avoid flat file submission mistakes. These resources were also made available outside of the online tool at <https://crdc.grads360.org>.

3.3 Addressing Errors

The CRDC online submission tool automatically performed validation checks on all data as they were entered or uploaded into the system. The system also flagged data errors or potential errors

(warnings). These checks are called “business rules” and were run in real time as data were entered into the system or after the flat file was uploaded (see Appendix D for a list of the CRDC business rules).

LEAs could view the Error and Warning Summary page that displayed any data errors, warnings, and pending validation checks. LEAs could correct errors in the online submission tool by modifying the data. If an error could not be corrected, the LEA was instructed to enter a reason and/or comment that explained why the value submitted was valid or, in the case of missing values, by providing a plan for reporting the required data in the next collection.

3.4 Certification

The last step in the CRDC data collection process was the certification of the submission by an authorized person. Certification attests that the data are “true and correct” to the best of the certifier’s knowledge. Only the LEA superintendent, or another person designated by the LEA superintendent was authorized to certify the LEA’s CRDC submission. Figure 1 shows a screen capture of the certification page in the online submission tool.

Before a data submission could be certified, all required data had to have been submitted for both the LEA form and all related school forms (unless exempted by OCR), and no errors could exist that had not been explained using a reason code, action plan, and/or overridden by the PSC. Submissions that did not meet these criteria were unable to certify.

A total of 17,337 LEAs or 99.81 percent of the universe certified their data.

Figure 1. Certification page in the 2015-16 Civil Rights Data Collection online submission tool

The screenshot shows the 'Certification' page of the online submission tool. At the top, a blue navigation bar contains the links 'Home >> Certification Dashboard >> Certification'. Below this, the page title 'Certification' is displayed. A message box states: 'There are no issues blocking certification. If you want to make further data changes, press the Cancel Certification button. To complete certification, agree to the terms below and press the Certify button. Note that once you certify, no further data changes will be possible unless you contact the Partner Support Center to un-certify.' The 'Certifier Information' section contains four input fields: 'Name', 'Title', 'Email', and 'Phone Number'. Below these fields, a paragraph explains that the CRDC will no longer collect data directly from LEAs, but instead, the data will be part of the LEA's CRDC submission. This is followed by a certification statement: 'I certify that the information provided is true and correct to the best of my knowledge and belief. A willfully false statement is punishable by law. (18 U. S. C. §1001.)' and a question: 'I am authorized to submit the LEA's forms for certification because I am:'. Two radio buttons are provided: 'LEA Superintendent' and 'Designated by the LEA Superintendent to certify'. At the bottom, there are two green buttons: 'Cancel Certification' and 'Certify'.

Home >> Certification Dashboard >> Certification

Certification

There are no issues blocking certification. If you want to make further data changes, press the Cancel Certification button. To complete certification, agree to the terms below and press the Certify button. Note that once you certify, no further data changes will be possible unless you contact the Partner Support Center to un-certify.

Certifier Information

Name

Title

Email

Phone Number

Previously the CRDC collected disaggregated data on graduates with a regular diploma and graduates with another credential. The CRDC also collected data on students with disabilities by disability category. Your LEA also reports this data to your state education agency, which reports it to ED (EDFacts DG 306 and EDFacts DG 74). To reduce burden, the CRDC will no longer collect this data directly from LEAs. Instead, the data that your LEA provides to the state education agency will become part of your LEA's CRDC submission. Your LEA's certification of its CRDC data includes verifying the accuracy of the data that your LEA submitted to the state education agency.

I certify that the information provided is true and correct to the best of my knowledge and belief. A willfully false statement is punishable by law. (18 U. S. C. §1001.)

I am authorized to submit the LEA's forms for certification because I am:

☐ LEA Superintendent

☐ Designated by the LEA Superintendent to certify

3.4.1 Certification by Action Plan

In cases where an LEA was unable to provide data for the 2015–16 CRDC, the PSC requested an action plan from the LEA to ensure that accurate data will be submitted for the 2017–18 CRDC. There were 118 LEAs that provided an action plan. The most common sections that required an action plan were Expenditures (EXPD), Harassment and Bullying (HIBS), SAT/ACT & Advanced Placement (EXAM), and Restraint and Seclusion (RSTR). Once OCR approved the action plan, the submission was considered certified. Please see Appendix D for a complete list of these LEAs.

4 DATA ANOMALIES

The following data anomalies occurred during the 2015–16 CRDC.

- There are a total of 608 juvenile justice facilities in the data collection. Due to a system error, over 400 of those facilities were not able to completely report data for data elements in the juvenile justice module. A data element that should have been reported (but was not) is identified with a -7 in the data file.
- A reserve code of -5 is used to indicate that an LEA is unable to report all required data elements in the current collection, but will be able to report those data elements in the future (action plan). Every data element related to the action plan should have a -5 in the data file. Due to a system issue, LEAs can have a mix of -5s and data values. The most common scenario is where there are -5s and 0s for those data elements related to the action plan.
- A reserve code of -9 is used to indicate that a data element is not applicable (and should be skipped) based on a response to a precursor question. Every skipped data element should have a -9 in the data file. Due to a system issue, the skip logic did not always function as expected. Some questions that should have been skipped were not. Those questions were displayed to the LEA in the submission tool and the LEA entered a 0 to avoid having a null field. An example of this is with the Single-Sex Interscholastic Athletics data. If an LEA indicated a school did not have students who participated in female-only interscholastic athletics, questions related to female-only sports should have been skipped. While many of these questions were skipped, some were not. To avoid having the empty data field, the LEA would enter a 0.
- The Sworn Law Enforcement Officers indicator question was inadvertently carried over from the 2013-14 data collection and displayed in the submission tool for 2015-16. This carryover caused a reporting issue with the SCH_FTESECURITY_LEO data element. Although the data element was required for all schools, the data element was skipped for over 69,000 of those schools. A -9 in the data file for the SCH_FTESECURITY_LEO data element indicates the submission tool skipped over the question for the school.

5 DATA FILE OVERVIEW

This section describes the type and format of the 2015–16 CRDC public-use data files. Data files are organized by related data elements and the data files only include certified data.

5.1 File Types

The CRDC collects data at two levels—the school level and the LEA level—using two different forms, referred to as the School Form and the LEA Form, respectively. Each form contains survey questions relevant to the reporting level. For the 2015–16 collection, the primary means for accessing and reviewing the forms was through the online submission tool. The paper forms can be found at the following links:

School Form <https://crdc.grads360.org/#communities/pdc/documents/5123>

LEA Form <https://crdc.grads360.org/#communities/pdc/documents/5127>

5.2 Variable Types

5.2.1 Identifiers

There are three main identifiers (IDs) used in the data files: one to identify the LEA, one to identify the school (in school-level files), and a combined LEA/school ID:

LEAID is the 7-digit district identification code

SCHID is the 5-digit school identification code

COMBOKEY is the 7-digit LEAID + the 5-digit SCHID

In most cases, the LEAID and SCHID combined (COMBOKEY) match the National Center of Education Data (NCES) ID used in *EDFacts*, although there are some schools where the CRDC and NCES identifiers differ due to differences in definitions and procedures between *EDFacts* and the CRDC. LEAs that did not have an existing ID were issued an NCES ID if there was one, or a new 7-digit LEAID, which consisted of the 2-digit state FIPS code followed by a 5-digit ID assigned by the PSC. Schools that did not have an existing ID were issued an NCES ID if there was one, or a new ID that consisted of the LEAID and a 5-digit school code assigned by the PSC.

In addition, the public-use data file contains contact information. For LEAs, the contact information includes name, street address, city, state and zip code. For schools, the contact information includes name, state and whether or not the school is a juvenile justice facility (JJ).

5.2.2 Reported Data Elements

Reported data elements are variables reported by the LEA, either as a direct data entry or a system-calculated value based on reported data. All system-calculated data elements were visible to the LEA and could be changed.

5.2.3 Calculated Totals

Calculated totals are variables that were computed during data processing (i.e., after data collection) and added to the data files (e.g., Total number of students with Limited English Proficiency, by sex). Totals calculated during data processing were not visible to the LEA or able to be changed by the LEA. Computed totals and variable names are shown in Appendix C.

5.3 File Structure

There are 34 topical data files based on reported data: 3 LEA-level files and 31 school-level files. These files correspond to the topical modules for which the 2015–16 CRDC data were reported. In addition, there are 17 *EDFacts* data files, which are described in section 5.4. The LEA-reported data file structure is shown in Appendix A, along with the file title, the order in which the files are presented, and the counts of each variable type contained in the file.

Appendix B shows the contents of each data file. It lists the file name (e.g., LEA Characteristics) followed by a list of the variable names and variable descriptions for the variables contained in the file.

5.4 *EDFacts* Supplemental Data

EDFacts is a U.S. Department of Education initiative that centralizes performance data supplied by K–12 SEAs with other data assets, such as financial grant information, within the Department to enable better analysis and use in policy development, planning, and management (see www2.ed.gov/edfacts). *EDFacts* data are included in the CRDC data files to assist with analysis and reporting. The *EDFacts* data supplemental to the 2015–16 CRDC are from the 2015–16 school year and the file structure is shown in table 1.

Table 1. *EDFacts* appended data file structure for the 2015-16 Civil Rights Data Collection

<i>EDFacts</i> Data Group	Title	Level	Counts by Variable Type	
			IDs	Data Elements
22	School Characteristics plus Title I Status	School	11	1
74	Race by Placement	School	8	9
74	Educational Environment by Gender by Disability	School	8	18
74	Race by Sex by Disability plus LEP_AUT	School	8	36
74	Race by Sex by Disability plus LEP_DB	School	8	36
74	Race by Sex by Disability plus LEP_DD	School	8	36
74	Race by Sex by Disability plus LEP_EMN	School	8	36
74	Race by Sex by Disability plus LEP_HI	School	8	36
74	Race by Sex by Disability plus LEP_MD	School	8	36
74	Race by Sex by Disability plus LEP_MISSING	School	8	36
74	Race by Sex by Disability plus LEP_MR	School	8	36
74	Race by Sex by Disability plus LEP_OHI	School	8	36
74	Race by Sex by Disability plus LEP_OI	School	8	36
74	Race by Sex by Disability plus LEP_SLD	School	8	36

U.S. Department of Education
2015-16 Civil Rights Data Collection

Table 1. *EDFacts* appended data file structure for the 2015-16 Civil Rights Data Collection

<i>EDFacts</i> Data Group	Title	Level	Counts by Variable Type	
			IDs	Data Elements
74	Race by Sex by Disability plus LEP_SLI	School	8	36
74	Race by Sex by Disability plus LEP_TBI	School	8	36
74	Race by Sex by Disability plus LEP_VI	School	8	36

6 DATA PROCESSING AND EDITING

This section describes the data processing and editing applied to the 2015–16 CRDC during and after data collection.

During data collection, real-time checks were performed to assist LEAs in reviewing their data accuracy. Post-data collection processing included data cleaning, assignment of reserve codes, calculating totals, merging *EDFacts* data, and assigning processing flags.

6.1 Real-Time Data Checks

The CRDC online submission tool was designed to provide real-time data checks to assist LEAs in reviewing their data accuracy. These checks were performed by the online submission tool business rules, which were designed to highlight potential errors in an LEA submission. Checks were performed within individual data elements, data tables, an LEA or School Form, and an entire submission. LEAs reviewed, corrected, or responded to errors prior to certifying their data.

There were 96 core business rules for errors, including range and logic checks, valid values rules, and comparisons to prior reported data or *EDFacts* data. The 2015–16 CRDC business rules are listed in Appendix D. These checks were run automatically on both entered data and uploaded data. Post-collection data processing of the 2015–16 CRDC data took place after the data collection closed on June 30, 2017. The post-collection data processing activities are described below.

6.1.1 Missing Data

For the CRDC data, missing values are represented with a -5 (action plan) or -6 (force certified). Action plans provide steps on how the LEA will collect the data for the 2017-18 collection. Force certified submissions do not have action plans and their missing values are represented with a -6.

Appended data from *EDFacts* with missing values also appear in the file. Missing values were assigned reserve codes to indicate whether they were missing for required or non-required data elements or for *EDFacts* data.

6.1.2 Assigning Reserve Codes

Special, or reserve, codes were assigned to all variables in the 2015–16 CRDC, as applicable. Force certifications take place when an LEA is unable to provide an action plan and has unique circumstances that prevent them from certifying. Reserve codes provide information on variables that do not have reported values. In order to accommodate a seamless transition to other software packages, reserve codes are standardized and use negative values that are not an actual count.

Table 2 lists the reserve codes and their definitions.

Table 2. Reserve codes used in the 2015-16 Civil Rights Data Collection

Reserve code value	Definition
-2	Small Cell Value
-5	Action Plan
-6	Force Certified
-7	System Error
-8	ED <i>Facts</i> Missing Data
-9	Not Applicable / Skipped

6.1.3 Calculating Totals

LEAs provided many totals during data collection and some select totals were auto-calculated by the online system. Some totals were computed and added to the data files during post-collection data processing. Examples of computed totals include: total overall enrollment by sex; total number of students who passed Algebra I in grade 7 or 8 by sex, and; total number of single-sex interscholastic athletics teams. Computed totals and variable names are shown in Appendix C.

6.1.4 Merging ED*Facts* Data

Variables from the 2015–16 ED*Facts* were merged with the 2015–16 CRDC data in the final data files. The appended variables are shown in table 1 in section 5.4.

6.1.5 Data Rounding and Small Cell Suppression

In order to prevent disclosure of individuals, data in the public use file have been rounded or replaced with a special reserve code. Data elements with small cell values have been suppressed and replaced by a special reserve code of -2. For other counts and numerical data elements, values were rounded. Calculated totals are based on rounded data.

Appendix D: System Business Rules for Errors

APPENDIX D: SYSTEM BUSINESS RULES FOR ERRORS

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Element	ERR0	Format: If a value is entered, it must conform to the associated element format.
Element	ERR1	Requirement: A value must be entered if the element is required.
Element	ERR2	Skip: A value should not be entered if the element is automatically skipped.
Element	ERR3	Autozero: A nonzero value should not be entered if the element is automatically set to 0.
Element	ERR4	Automax: Value entered must be less than or equal to an automatically calculated maximum value. (constant)
Element	ERR4	Automax: Value entered must be less than or equal to an automatically calculated maximum value. (other element)
Element	ERR4	Automax: Value entered must be less than or equal to an automatically calculated maximum value. (Lowest of a number of other elements)
Element	ERR4	Automax: Value entered must be less than or equal to an automatically calculated maximum value. (1 other element + constant)
Element	ERR4	Automax: Value entered must be less than or equal to an automatically calculated maximum value. (Lower of diff of 2 other elements or 3rd element)
Element	ERR5	Value must be greater than minimum (1)
Element	ERR5	Value must be greater than minimum (Other element)

U.S. Department of Education
2015-16 Civil Rights Data Collection
Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Element	ERR5	Value must be greater than minimum (Sum of 2 other elements)
Element	ERR20	Within each of the 14 grade levels, the value entered for overall grade level enrollment must be consistent with the values entered for ED Facts data overall grade level enrollment for the same grade level.
Element	ERR21	<p>Within each of 14 combinations of race/ethnicity and sex, the value entered for total enrollment must be consistent* with the values entered for ED Facts data overall enrollment for the same race/ethnicity and sex category.</p> <p>*<10, no check; 10-100, 30% tolerance; >100, 20% tolerance.</p>
Element	ERR22	The value entered for whether or not a school is a charter school should be consistent with what was entered on the ED Facts data.
Element	ERR23	<p>The value entered for whether or not a school is a magnet school should be consistent* with what was entered on the ED Facts data.</p> <p>*If ED Facts is No, CRDC may still be Yes without a Warning, but if ED Facts is Yes, CRDC being No triggers the Warning.</p>
Element	ERR24	The value entered for whether or not a school is an alternative school should be consistent with what was entered on the ED Facts data.
Element	ERR25	The value entered for whether or not a school is a special education school should be consistent with what was entered on the ED Facts data.
Element	ERR30	If the value entered for total number of full time teachers is less than or equal to 10 then it must be within 5 of the equivalent value entered on the ED Facts data. If the value entered for total number of full time teachers is greater than 10 but less than or equal to 100, then the value must be within 30% of the equivalent value entered on the ED Facts data. If the value entered for total number of full time teachers is greater than 100, then the value must be within 20% of the equivalent value entered on the ED Facts data.

Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Element	ERR100	The value entered for whether the LEA is under a desegregation order or plan must be consistent with what was entered in the prior CRDC survey.
Element	ERR1001	Presence of coordinator on basis of sex, race, and disability
Element	ERR2001	The value entered for whether the specific grade level has any enrolled students is inconsistent with whether adjacent grade levels have any enrolled students.
Element	ERR2002	The ratio of total number of students enrolled in a type of class and the number of classes of that specific type should be greater than or equal to 1 but less than or equal to 100.
Element	ERR2004	If AP Math, AP Science, or AP Other course enrollment indicators are selected “Yes” then total AP course enrollment must be greater than 0.
Element	ERR2005	The sum of total first year teachers and second year teachers must be less than or equal to the total number of full time teachers.
Element	ERR2006	The sum of certified teachers + non-certified teachers should equal the total number of full time teachers.
Element	ERR2007	Within each sex (Male/Female), the sum of students enrolled in single sex athletics must be less than or equal to the total enrollment for that sex.
Element	ERR2008	Within IDEA, 504, and students without disabilities, if the number of restrained students is greater than 0 then the number of instances of mechanical restraint, physical restraint, or seclusion for that specific group of students must be greater than 0.
Element	ERR2010	If the value entered for number of allegations of harassment or bullying on the basis of (sex/race/disability) is greater than 0 then the corresponding students entered as harassed or bullied must be greater than 0.
Element	ERR2015	For any active school the value entered for the specific expenditure must be greater than 0.

2015-16 Civil Rights Data Collection
Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Element	ERR2021	The value entered for male single sex athletics teams must be greater than or equal to the value entered for male single sex sports.
Element	ERR2022	The value entered for female single sex athletics teams must be greater than or equal to the value entered for female single sex sports.
Element	ERR2023	The value entered for male single-sex scholastic interscholastic participants must be greater than or equal to the number of male single-sex athletics teams.
Element	ERR2024	The value entered for female single-sex scholastic interscholastic participants must be greater than or equal to the number of female single-sex athletics teams.
Element	ERR2030	With the exception of special education designated schools, the value entered for salary expenditures of full time teachers/FTE must between \$10,000 and \$ 250,000.
Element	ERR2032	Salary expenditures for [instructional staff / total instructional personnel] divided by school enrollment should not exceed \$300,000.
Element	ERR2033	Salary expenditures for teachers / FTE of teachers supported by state and local funds should not exceed 1 million
Element	ERR2203	If the school status is reported as a special education school then the sum of overall IDEA and 504 enrollment must be greater than 0.
Element	ERR9000	If the indicator field was selected “Yes” or >0, then the current dependent field must be >= 1.
Element	ERR9001	If this indicator field is selected “Yes” or >0, then at least one of the dependent fields must have a reported value greater than 0.
Element	ERR9002	Within each sex (Male/Female), total LEP students entered must be less than or equal to the total student enrollment for that sex.
Element	ERR9003	Within each sex (Male/Female), total IDEA students entered must be less than or equal to the total student enrollment for that sex.

U.S. Department of Education
2015-16 Civil Rights Data Collection
Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Element	ERR9004	Within each sex (Male/Female), total 504 students entered must be less than or equal to the total student enrollment for that sex.
Element	ERR9100	Within each of the 14 categories of race/ethnicity and sex, if the student enrollment of that category is less than or equal to 10 then the entered value must not exceed the enrollment plus 5.
Element	ERR9101	The value entered is limited to a hard limit of 10,000 (similar to ERR4, but with no reason code allowed).
Element	ERR9110	New teacher absenteeism should be less than 1.1 * Total Teacher FTE (comment required).
Element	ERR9150	Within each of the 14 categories of race/ethnicity and sex, if the non-disability student enrollment (ENR-IDEA-504) of that category is less than or equal to 10 then the value entered must not exceed that enrollment plus 5.
Element	ERR9160	For each affected element, If the value entered is less than or equal to 10 then the allowable range for the value entered is the total LEP student enrollment for that sex plus 5.
Element	ERR9991	For each affected element, If the field is not currently skipped nor automatically set to 0, an entry or response of "NS" requires review by the OCR.
Table	ERRT204	The sum of LEP male and female enrollment should be consistent with the sum of LEP enrollment of all 14 categories race/ethnicity and sex.
Table	ERRT205	The sum of IDEA male and female enrollment should be consistent with the sum of IDEA enrollment of all 14 categories race/ethnicity and sex.
Table	ERRT206	The sum of 504 male and female enrollment should be consistent with the sum of 504 enrollment of all 14 categories race/ethnicity and sex.
Table	ERRT910	The system requires M+F for each racial/ethnic category in order to calculate table totals.
Table	ERRT990	No value greater than zero has been entered for any field under overall enrollment. As the CRDC only collects data from schools where students spend at least 50% of the school day,

U.S. Department of Education
2015-16 Civil Rights Data Collection
Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
		please correct enrollment data to reflect a total enrollment greater than zero, or contact the PSC to request an exemption for this school for reporting at all.
Table	ERRT991	Overall enrollment for any single school must be less than or equal to 10,000.
Form	ERRF010	If EDFacts grade level specific enrollment is greater than 10, the ratio of grade specific retention to EDFacts grade level specific enrollment should not exceed 90% for that particular grade level.
Form	ERRF201	Within each of the 14 combinations of race/ethnicity and sex, the total number of students enrolled in at least one AP course should be less than or equal to the sum of students enrolled in AP Math + students enrolled in AP Science + students enrolled in other AP subjects.
Form	ERRF201	In addition the number of students enrolled in AP Math, AP Science, or other AP subjects individually should not be greater than the number of students enrolled in at least one AP course for the same race/ethnicity and sex category.
Form	ERRF202	Within each of the 14 combinations of race/ethnicity and sex, the number students passing at least one AP Exam plus the number of students not passing AP exams should be equal to the number of students taking at least one AP exam for the same race/ethnicity and sex category.
Form	ERRF203	Within each of the 14 combinations of race/ethnicity and sex, the sum of students taking no AP exams plus students taking one or more exams should be equal to at least 90% but no more than 100% of students enrolled in at least one AP course for the same race/ethnicity and sex category.
Form	ERRF204	Within each of the 12 combinations of Sex (Male/Female) and single sex classes, the ratio of students to single sex only classes should be greater than 20. If the ratio is less than 20 this may suggest that the school may be reporting the number of students enrolled in single sex classes instead of the actual number of single sex classes.

U.S. Department of Education
2015-16 Civil Rights Data Collection
Appendix D: System Business Rules for Errors

System Business Rules for Errors for the 2015-16 CRDC		
Error Type	Error #	Description
Form	ERRF206	When total school enrollment is greater than 100, the total number of student expulsions should not be greater than 50% of total school enrollment.
Form	ERRF207	The total number of school related arrests should not exceed 110% of total referrals to law enforcement.
Form	ERRF208	If the total number of students taking at least one AP course exceeds 200 then the total number of students taking at least one AP exam must be greater than 0.
Form	ERRF209	If overall school enrollment is greater than 750 students then the single sex athletics indicator must be selected "Yes".
Form	ERRF210	If LEP enrollment is greater than 500 students, then LEP enrollment in LEP programs must be greater than 0.
Form	ERRF211	Within each of the 14 combinations of race/ethnicity and sex, the sum of single out of school suspensions and multiple out of school suspensions should not exceed school enrollment for the same race/ethnicity and sex category by more than 5 if ENR \leq 10; more than 10% if ENR $>$ 10. In addition the overall sum of single out of school suspensions and multiple out of school suspensions should not exceed overall school enrollment according to the same tolerances.
Form	ERRF212	If the number of instances of restraint or seclusion is greater or equal than 100, then the number of students subjected to restraint or seclusion should be less than the number of instance of restraint or seclusion
Form	ERRF213	If the school has indicated that students were expelled for under zero tolerance policies then the sum of students expelled with educational services and students expelled without educational services must be greater than 0.
Form	ERRF305	Overall grade specific retention should not exceed overall enrollment
Form	ERRF311	The sum of single out of school suspensions and multiple out of school suspensions should not exceed overall school enrollment.
