

**Technical Information for the
2012 Survey of Business Owners (SBO): Company Summary (CS) Dataset
Accessible via the Application Programming Interface (API)**

Estimates are provided for firms classifiable by gender, ethnicity, race, and veteran status, (DATA FIELDS described under the single attributes of “SEX”, “ETH_GROUP”, “RACE_GROUP”, and “VET_GROUP”) as well as for publicly held and other firms not classifiable by gender, ethnicity, race, and veteran status.

Data are tabulated by:

- Geography (U.S., states, metropolitan areas, counties, and places)
- Industry (2- through 6-digit 2012 North American Industry Classification System code (NAICS2012) and meaning of code (NAICS2012_TTL)) [See <http://www.census.gov/eos/www/naics/> for detailed information.]
- Receipts size of firm (RCPSZFI)
- Employment size of firms with paid employees (EMPSZFI)

The full list of geographies can be found at <http://api.census.gov/data/2012/sbo/geography.html> and the full list of variables can be found at <http://api.census.gov/data/2012/sbo/variables.html>.

Abbreviations and Symbols:

Please note that Symbols will show in the associated flag field for variables. The data value shown will be zero. The following abbreviations and symbols are used with these data:

- S** - Withheld because estimate did not meet publication standards
- N** - Not available or not comparable
- X** - Not applicable

For the complete list of all economic programs symbols, see the Economic Census Data Dictionary at <https://www.census.gov/programs-surveys/economic-census/technical-documentation/data-dictionary.html>.

Technical Notes:

Detail may not add to the total or subgroup total because a Hispanic or Latino firm may be of any race, and because a firm could be tabulated in more than one racial group. For example, if a firm responded as both Chinese and Black majority-owned, the firm would be included in the detailed Asian and Black estimates, but would only be counted once toward the higher level estimates for all firms.

For all firms classifiable by gender, ethnicity, race, and veteran status, the details are counted based on the person(s) owning 51 percent or more of the stock or equity in the business. These estimates are tabulated by single attribute (such as female-owned). Separate estimates are counted and tabulated for firms equally owned (50 percent / 50 percent).

Publicly held and other firms not classifiable by gender, ethnicity, race, and veteran status are counted and tabulated separately.

Percentages are for respondent firms only and are not recalculated when the dataset is resorted. Percentages are always based on total reporting (defined above) within a gender, ethnicity, race, veteran status, and/or industry group for characteristics tabulated in this dataset. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total for all sectors. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see the Methodology section at <https://www.census.gov/programs-surveys/sbo/technical-documentation/methodology.html>.
